## **Problem Faced Related to the Project:**

- Find difficulty while using PowerDesigner software to make a DFD model in it.
- While working on the team project there are a lot of ideas but some of the ideas are going out of track. We manage to summarize all ideas and bring them back on track.
- Faced too many challenges while building a website, got confused in code and implementation of the website.
- Since a high number of applications are out there for the same topic, finding some out-of-the-box characteristics was challenging for us.
